

**Pennsylvania Department of Transportation – Engineering District 8-0
SR 7401 (Country Club Road) over Unnamed Tributary to Beaver Creek
Abbottstown Borough, Adams County**

Project Description

The State Route (SR) 7401, also known as Country Club Road, Section BRG bridge replacement project over Unnamed Tributary (UNT) to Beaver Creek is located in Abbottstown Borough, Adams County. The purpose of this project is to replace the existing deteriorated structure with a safe, efficient crossing while also repairing the degraded roadway to ensure a safer corridor for the traveling public.

The project consists of the replacement of the existing bridge and realigning Country Club Road to enhance safety and functionality. It includes guiderail upgrades, drainage improvements, and scour protection, as well as fully reconstructing the pavement section. The proposed structure will widen Country Club Road to accommodate two 10-foot lanes with 2-foot shoulders. Please refer to the projects preliminary plan graphic.

Environmental Considerations

The project is located on the outside of Abbottstown Borough, with residential properties surrounding the bridge. There are no existing pedestrian and bicycle facilities through this section of Country Club Road.

A waterway permit will be required to construct the bridge to include in-stream work associated with the existing bridge removal, bridge installation, and scour protection.

No wetlands are present within the project Limits of Work.

Utilities

Utilities currently located within the project site include aerial electric, telecommunication, natural gas, and sanitary sewer facilities. Utility impacts are anticipated to accommodate the bridge construction and coordination is ongoing.

Maintenance and Protection of Traffic

The bridge will be closed to all traffic during construction. A detour will be utilized to maintain the flow of traffic around the project site. The 2.7-mile detour will utilize SR 2033 (Maple Grove Road), SR 0194, and SR 0030. Please refer to the project's Detour Plan graphic.

Construction Schedule and Cost

Construction is anticipated to occur during the 2027 construction season. The estimated construction cost is \$1,300,000.

Contact

If there are any questions or concerns related to the project, please contact Danielle King, Project Manager, at (717) 432-4425 ext. 134 or email c-daniekin@pa.gov.
